Applicable Codes and Ordinances

The effective code of ordinances governing this project is the Town of Davie Land Development Code.

The Broward County Land Development Code requires Delegation Requests for plat note revisions.

Significant Development Review Agency Comments

Broward County Development Management Division is the County lead agency in assessing the impact of development through the plat and/or delegation request process. Broward County requires that the petitioner request to amend or revise the level of approved development on the plat. Such requests must be approved by the local municipality and County Commission, and then subsequently recorded against the plat. As part of the delegation request process, the property would be reviewed for traffic concurrency and assessed any additional traffic impact fees, or mitigation measures, as applicable.

Comprehensive Plan Considerations

Planning Area: The subject property falls within Planning Area 11. This Planning Area is bound by Stirling Road on the north, Davie Road Extension on the southeast, and University Drive on the west. The area is characterized by multi-family residential development on the south side of Stirling Road, ranging from 8 to 16 dwellings per acre. There is one single family residential subdivision developed at five dwellings per acre.

Broward County Land Use Plan: The subject site falls within Flexibility Zone 102.

Broward County Land Development Code: The Broward County Land Development Code requires that any changes or waivers to requirements of development permit applications be reviewed and approved or disapproved by the municipality with final approval by Broward County Commission.

Applicable Goals, Objectives & Policies: The proposed plat is generally consistent with the goals, objectives and policies of the Comprehensive Plan.

Staff Analysis/Findings of Fact

The boys and girls club is a staff-initiated project. The Town's Consolidated Plan for Federal Funds adopted in July 1997, set forth Neighborhood Revitalization/Redevelopment Plans for the three geographic areas in Davie. The Driftwood Target Area is a high priority for redevelopment due to the significant number of lower-income and minority families with children and at-risk youth.

The Davie Town Council adopted the "Harmony Village Community Redevelopment/Revitalization Plan" for the Driftwood neighborhood in February of 2001. This initiative is a multifaceted endeavor which contains both residential and nonresidential components. The Plan sets forth a holistic approach to neighborhood revitalization which encompasses infrastructure improvements, in-fill housing, expansion of recreational facilities for at-risk youth, educational opportunities, health care, and other social services.

Under the Harmony Village Community Plan Plan, a new 8,681 square foot facility will be constructed on the southeast corner of Driftwood Park. The new facility will provide expanded educational & recreational opportunities for approximately 1,000 at-risk youth (representing a 70% increase in children served), in a more centralized location, that will entice the participation of all children in this culturally diverse neighborhood. The new facility will be buffered from the wastewater treatment plant by a 6' chain link fence.

The proposed revision is consistent with the existing and proposed use of the subject site. Approval of this request is subject to sufficient capacity of the regional road network as determined by Broward County. In the event sufficient capacity is not met, the delegation request shall be deemed denied by the Town of Davie.
